

Town of New Marlborough
Board of Health
Meeting of May 7, 2013

The meeting began at 7PM with Larry Davis, III, Chairman, Jack Bellinger, Member, Scott McFarland, Agent, present with Norm Hankey, Member absent.

Minutes of the previous meeting were approved with the correction that the next meeting was on May 7th, not the 6th.

title 5 ~~Septic plans for an upgrade~~ at 249 Brewer Branch looks good.

A septic design for a guest house at 64 Canaan Valley Rd. was approved. This property is large and a second dwelling was being constructed as a guest house.

The Buggy Whip is looking to demolish part of that complex.

Southfield Store: Needs monthly reports starting right now and through the summer.

WaWaSegowea: Is preparing to open for the season with a limited amount of campers. Norm ~~Butler~~ *Butler* is no longer the man in charge, he has a position at Camp Jewel in NY.

Mill River Water Takers: The issue is being resolved between the facility and the State.

Scott met with Robert Olsen re: the Ladies Auxiliary kitchen at the Southfield Church. At this point it is only an exploratory expedition to perhaps making it a full public kitchen some time in the future. Right now it is a pot luck operation. Any further functions would need a permit from the town for a limited event.

Dates for the next Alliance meetings are June 13, Sept 12, and Nov. 14. Scott will attend the next meeting. Jack said he thinks he can to the Sept. meeting.

Mike White, owner of 169 Norfolk Rd. needs a Title 5 done.

The meeting adjourned at 7:45PM.

Respectfully submitted,

Pia G. Bellinger, Sec.
