

Town of New Marlborough
Board of Health
November 10, 2015
Meeting

The meeting began at 7:10 PM with Chairman Larry Davis, III, Scott McFarland, Agent present. Jack Bellinger and Norm Hankey were absent.

Waiting for the meeting was Mike Kulig with paper work for the Thayer House at Old Inn on The Green. The plans were thoroughly discussed with several revisions and finalizing of the septic design.

Minutes of the previous meeting were read with a correction that the above plan at that meeting was discussed, not approved as stated in those minutes.

At 130 Woodleigh Ave. the place will have a new house constructed with the removal of the old structure. A whole new septic will be installed along with a new well. All necessary requirements for this construction were valid and approved.

Scott is to meet with Wilkinson about the work to be done at Gedney Farm.

The Koneazny project in Campbell Falls still needs a legible well completion report with the results.

The Levine house at the corner of Hartsville Mill River Road and Great Barrington Road has a failed Title 5.

Discussed, briefly, was the prospect of all permitting applications be capable of being done on line. The Building permits are already on line and working well according to Tom Carmody.

The meeting adjourned at 8:10PM.

Respectfully submitted,

Pia G. Bellinger, Secretary
