

Board of Health Monthly Meeting
Aug. 11, 2015
Town of New Marlborough

The meeting began at 7 PM with all members present.

Minutes of the previous meeting, July 14, 2015 were approved with minor spelling corrections.

The Board addressed the issue of Bruce Bean's on going complaint of the noise/music from Gedney Farm regarding their entertainment functions. Again the Board felt that this issue sits with the Selectmen who issued the Farm a license to sell alcohol. The Board could not ascertain whether a permit was issued to have music or any form of entertainment. The Board agreed that the Beans should send their concerns to the Selectmen in writing making note of specific days, times and hours of the annoyance.

A septic plan for 23 East Hill Rd., Richard and Barbara Zdzarski, was issued a permit to install. There was some question as to their water source.

The Board received a plan for 967 Cross to Canaan Valley from James Koneazny for a 40'x 40' storage shed. A question arose concerning there would be an office in the building and if that means there will be a need for a septic system there is no application in the works. Also if there is water, there is no well permit on file. Ralph Stanton is the designer of the ~~any~~ plans.

17 Lawrence Ave., on the Lake, has an approved upgrade. (Naomi London. Owner)

A new system going in at Map 407, Lot 30.02 for Roman and Sherri Kropp has been approved on New Marlborough-Sandisfield Rd.. As yet there is no 911 number assigned.

Mail was reviewed.

Meeting was adjourned at 8:20PM.
Next meeting will be Sept. 8th.

Respectfully submitted,
Pia Bellinger, Sec.
